Overview:

A 34,000m² state of the art medical facility comprising consulting suites, seven operating theatres, medical imaging, radiation, oncology and nuclear medicine facilities and parking for 500 vehicles.

Challenges:

Co-ordinating a complex services and equipment fit-out package during the construction of the main building works.

Incorporating major additional medical functions during the construction phase of the project.

Outcomes:

The building was successfully completed on time and within budget with radiotherapy and oncology units completed as separate fit-outs. The facility was officially opened in 2012 offering the St George and Sutherland Shire region a world class medical facility.
